Soudal invests in Belgian 'Foam System House' Sapac

While continuing its extensive investment program at its various production sites, both in Belgium and abroad, Soudal is pleased to announce a new acquisition to further complete its product portfolio.

Soudal, with its headquarter in Turnhout (Belgium), will take over SAPAC P&R (Packaging & Recycling) specialized in producing PU Foam systems for the packaging and insulation industry. With this acquisition Soudal will continue its expansion with new technologies and applications offering insulation solutions.

Sapac P & R is a Belgian system house and manufacturer of extruded insulation foam machines with its customer base in the packaging and insulation market. Established more than a decade ago, Sapac offers its clients flexible, safe and maintenance friendly methods of packaging and insulation throughout its patented technologies.

Sapac is the market leader in the production of 2-component insulation foam machines for the production of protective packaging bags fitted with fully sealed swappable canisters. The company has achieved a leading position in the area of both safety as well as hygiene.

Sapac offers its client customized solutions, from assembly and machine maintenance, development and foam production adapted to the specific circumstances, up to the collection and recycling of the empty PU Foam canisters.

For more information please consult www.sapac.be.

Dirk Coorevits, the CEO of Soudal: "In cooperation with Soudal, Sapac will be able to accelerate its growth in the above mentioned markets and to enter new markets. The further development of these technologies and market segments will without doubt result and synergies in various areas."

About Soudal

Soudal is the largest independent European manufacturer of sealants, adhesives and polyurethane foam for professional and private use. With more than 2.400 employees and 15 production sites on 4 continents, this 100% Belgian family business, with its founder Vic Swerts still at the helm, has developed into an international player and an expert in chemical construction specialties. Continued investments in R&D, a long-term vision for innovation and adaptations to local market requirements are the foundations for Soudal's excellent performance. Soudal celebrates its fiftieth anniversary in 2016.
